**IOGA**

ILLINOIS OIL & GAS ASSOCIATION

*The voice of the oil and gas industry in Illinois*

# Advocacy

IOGA has a rich history in the protection of the oil and gas legal and regulatory arena in Springfield and Washington, D.C. We have:

- Mitigated the imposition of a severance tax on oil production
- Successfully supported for the adoption of legislation that allows for faster well permitting and reduced spacing for production wells.
- Advocated to preserve the Percentage Depletion Allowance
- Advocated for modification of EPA methane requirements for the small, independent producers
- Reviewed and provided strong arguments against some proposed Underground Injection Control changes to well construction within the area of review
- Met with county assessors to formulate the ad valorem tax schedule
- Actively engaged with IDNR through the Oil and Gas Advisory Board to ensure reasonable oil and gas rules and regulations
- Successfully negotiated to improve communications regarding Notice of Violations (NOVs) that will positively impact all operators of the Illinois Basin
